Virtual tour statistics

Less than 10% of listings have virtual tours yet homes with multiple photos and virtual tours are preferred by buyers when browsing homes online.

40% more people click on an MLS listing with a virtual tour compared to listings without one.

150% improvement in buyer interest after viewing a virtual tour and then visiting a listing in person.

46% said they found a virtual tour to be “very useful”.

72% of buyers drove by or viewed a house for sale as a result of an Internet search.

52% of all online shoppers visited open houses while only 38 % did not.
